

Bastow Bob Doubles

The work is very simple for the working bells.

Dodge 3/4 up

long fifths

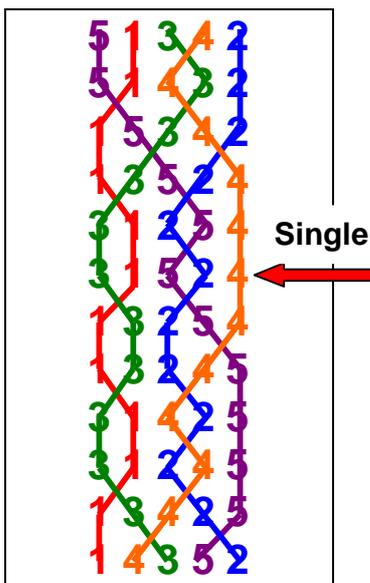

dodge 3/4 down

lead

The plain course is very short - just 16 changes

The treble makes seconds and leads again etc.

Single

Single

Two singles will give 32 changes

Call the single when ringing long fifths at backstroke when the treble is in 2nds place

Repeat when you are next ringing long fifths

The bell leading makes 2nds and leads again

The bell that has just dodged 3/4 down makes thirds then dodges 3/4 up immediately

The bells in 4/5 are unaffected
